Enterprise Agreement Fact Sheet | Waters Corporation

Enterprise Agreement License Overview

Software

Unlimited access to current versions of LabVIEW, TestStand, LabVIEW Real-Time Module, LabVIEW FPGA and other software packages listed in Included Software. Software is available to all Waters employees and contractors. The software may run detached from the network.

Technical Support

Unlimited access to web, phone, and email technical support. In addition, a limited number of engineers are set up with Premier Support.

Training and Certification

Unlimited access to self-paced online training, which includes LabVIEW Core 1, 2, & 3, LabVIEW Advanced, LabVIEW OOP, LabVIEW Real-Time 1 & 2, LabVIEW FPGA, TestStand, DIAdem Basics & Advanced, Multisim, & Ultiboard in a web-accessible multimedia format 24/7/365.

Training credits are available for instructor-led training in onsite, online, or NI facility courses. Credits may also be used for certification exams.

License Term

The license is effective for 3 years starting April 1, 2014.

Accessing License Features

Software Access

If the software is already installed, navigate to [\\ni-lic\software](#) and select any version of Developer Suite. Navigate to the Client directory. Launch vlmclient.exe and enter any requested information. This will not install any new software.

If the software is not installed, navigate to [\\ni-lic\software](#) and select the software version you want to install. Launch setup.exe and enter any requested information. Join the appropriate Group to gain permission to software.

Technical Support

Technical support is included as part of this contract. Support is available on the web, through email, or on the phone. To start a support request, visit [ni.com/ask](#). Your NI.com user profile must list a waters.com or tainstruments.com email address. If you don't have access, call 800-433-3488 and reference your Service ID "EA-15672".

Instructor-Led Training

Class outlines and an up-to-date schedule are located at <http://www.ni.com/training>. Credits can be applied towards classes online, at a Waters facility, or at a regional NI facility. Use of credits must be approved by your organization. Contact Joe Kuprevich or Mike Mandelenakis with requests.

Self-Paced Training

Self-paced online training does not require the use of any credits. To access online training, follow these steps:

1. Go to [www.ni.com/self-paced-training](#). Log in with your ni.com user profile associated with a waters.com or tainstruments.com email address. Select the "Access Training" button.
 - a. If you don't have access, visit [ni.com/myproducts](#) and enter your self-paced online training serial number: Z71M57999. Return to [ni.com/self-paced-training](#). If you have issues or questions, email "EA.Training@ni.com" and provide your name, e-mail, phone number, and Service ID EA-15672.
2. On the Self-Paced Online Training home page, click the "Available Courses" or "Training History" link. This will take you to your course listing. From there you can watch video modules, track your completion status of those videos, and download course exercises and solutions.
