

Instruction Sheet for UHPLCMSMS Tender Evaluation Sample

Instructions

1. The set of evaluation samples (drug residues) intended for the upcoming tender for the triple quad LCMSMS consist of 5 samples in 2mL vials, which are 0.1ppm standard mixture (marked as 'DR-STD (0.1ppm)'), spiked sample (marked as 'DR-SPK'), and matrix blank (marked as 'DR-BLK '), respectively.
2. Upon the receipt of evaluation samples, all parties are required to start running samples as soon as possible. The tenderers are required to report back the test findings by the closing date and time of the tender. Please submit the testing results to Patricia Chua of Drugs & Residues Specialist Team by either email or in the form of hardcopy report.
3. The test findings should include a summary report (suggested as below), together with detailed UHPLCMSMS running conditions, the MRM chromatograms, calibration curves, and stating the library used (if any). Any drug appearing in the indicative list but not reported as positive detection in the test report will be treated as not detected.
4. Please seek any further clarification with Ms. Patricia Chua at 6795-2831 or Patricia_Chua@sfa.gov.sg for samples related issues.

Suggested Format of Summary Report*

(This form should be expanded as necessary)

S/N	DR-STD (0.1ppm) (to indicate drugs identified)	DR-SPK A (the drugs identified & their levels in ppb)	DR-SPK B (the drugs identified & their levels in ppb, if any)	DR-BLK A (the drugs identified & their levels in ppb, if any)	DR-BLK B (the drugs identified & their levels in ppb, if any)

Knolwedgement of sample receipt:

I acknowledge the receipt of the 5 samples as described above, today. I understand the instructions given above and will undertake to report back the test results on time.

Signature & Date

16-beta-hydroxy stanozolol	Clenbuterol	Maduramycin	Ractopamine
17-alpha-ethynylestradiol	Clenpenterol	Magnamycin	Rafoxanide
17-alpha-methyltestosterone	Clopidol	Mapenterol	Ramoplanin
2-Mercaptobenzimidazole	Clorsulon	Marbofloxacin	Robenidine
2-Thiourcil	Closantel	Mebendazole	Ronidazole
4-Epichlortetracycline	Cloxacillin	Mebendazole rac dihydro	Roxarsone
4-Epioxytetracycline	Colistin	Medroxy Progesterone acetate	Salbutamol
4-Epitetracycline	Danofloxacin	Mefenamic acid	Salinomycin
5,5-diphenylhydantoin	Danozol	Meloxicam	Sarafloxacin
5-hydroxyflunixin	Dapsone	Methylthiouracil	Semduramycin
5-Hydroxymebendazole	Decaplanin	Metoserpate	Spectinomycin
6-alpha-methylprednisolone	Decoquinat	Metronidazole	Spiramycin
Abamectin	Derquantel	Metronidazole-hydroxy	Stanozolol
Acepromazine	Desacetylcefapirin	Monensin	Sulfabenzamide
Acetylisovaleryltylosin	Dexamethasone	Monepantel sulfone	Sulfabromomethazine
Aivlosin/Tylvalosin	Diclazuril	Morantel	Sulfacetamide
Albendazole	Diclofenac	Moxidectin	Sulfachloropyrazine
Albendazole Sulfone	Dicloxacillin	Nafcillin	Sulfachloropyridazine
Albendazole Sulfoxide	Dienestrol	Nalidixic Acid	Sulfadiazine
Albendazole-2-amino-sulfone	Diethylstilbesterol	Nandrolone	Sulfadimethoxine
Altrenogest	Difloxacin	Naproxene	Sulfadoxine
Aminosidine	Dimetridazole	Narasin	Sulfaethoxypyridazine
Amoxicillin	Diphenhydramine	Nequinat	Sulfaguanidine
Ampicillin	Doramectin	Nicarbazin	Sulfamerazine
Amprolium	Doxycycline	Niflumic acid	Sulfamethazine
Apramycin	Enamectin Benzoate	Nifurpirinol	Sulfamethiazole
Arsanilic acid	Enrofloxacin	Nifurstyrenate	Sulfamethoxazole
Artemether	Epi-Testosterone	Nitarson	Sulfamethoxypyridazine
Avilamycin	Eprinomectin	Nitrofur	Sulfamonomethoxine
Avoparcin	Erythromycin	Nitrofuration	Sulfamoxol
Azaperol	Estradiol	Nitrofurazone	Sulfanilamide
Azaperone	Estriol	Nitroxynil	Sulfapyridine
Bacitracin	Estrone	Norfloxacin	Sulfaquinoxaline
Bbenzylpenicillin	Ethopabate	Novobiocin	Sulfathiazole
Betamethasone	Ethyl Estradiol	Nystatin	Sulfisoxazole
Bleomycin	Fenbendazole	Ofloxacin	Sulfomycin
Boldenone	Fenprostalene	Oleandomycin	Teicoplanin
Brombuterol	Flubendazole	Orienticin	Telavancin
Buquinolate	Flumequine	Ormetoprim	Terbutaline
Carazolol	Flunixin	Oryzalin	Testosterone
Carbarsone	Furaltadone	Oxacillin	Tetracycline
Carbmazepine	Furazolidone	Oxfendazole	Thiabendazole
Cefacetrile	Gamithromycin	Oxfendazole sulfone	Tiamulin
Cefalexin	Halofuginone lactate	Oxolinic Acid	Tildipirosin
Cefalonium	Haloperidol	Oxybendazole	Tilmicosin
Cefapirin	Hexestrol	Oxyclozanide	Toltrazuril sulfone
Cefazolin	Hydroxy dimetridazole	Oxytetracycline	Trenbolone
Cefoperazone	Hydroxythiabendazole	Paracetamol	Tricaine
Cefquinome	Hygromycin B	Pefloxacin	Triclabendazole
Ceftiofur	Ibuprofen	Penicillin V	Triclabendazole sulfone
Cefuroxime	Ipronidazole	Phenylbutazone	Triclabendazole sulfoxide
Cephalosporin	Ipronidazole-hydroxy	Pimaricin	Tripelennamine
Cephalothin	Ivermectin	Piperazine	Tulathromycin A
Cephracline	Josamycin	Polymyxin B	Tulobuterol
Cephradine	Ketoprofen	Ponazuril	Tylosin
Chlorhexidine	Ketotriclabendazole	Prednisolone	Valnemulin
Chlormadinone	Kitasamycin	Prednisone	Vancomycin
Chlorpromazine	Laidlomycin	Progesterone	Virginiamycin
Chlortetracycline	Lasalocid	Propionylpromazine	Xylazine
Cimaterol	Leucomycin	Propylthiouracil	Zeranol (Zer)
Cimbuterol	Levamisole	Pyrantel	Zilpaterol X
Ciprofloxacin	Mabuterol	Pyrimethamine	Zoalene
