1	21-Apr-20	Since we are required to propose, possible to get details of the scope of integration, who is the current vendor/ brand of LISA system used in the laboratory? The proposal should includes integration of HPLC software to LISA or HPLC to Open Lab ECM then to LISA?	The LISA2 system that we are utilising is LabWare. The integration should include ECM to LISA. However the ECM that we are using is no longer Open Lab, it is Logical Dot.
