Hi Ee Ling,

We have an old tester- Flow Cell Pressure Decay tester in Flex. It's running on high percentage of tester's capacity and it's an unique tester critical to our flow cell production in Flex. So we need to have a new tester to distribute the loading and back up each other with the existing tester.

Please kindly review/approve this CEA below for new flow cell pressure decay tester build.

Thank you

Hi Hua Zhen

Is this already signed by Ee Ling? If not, can you get approval by email?

Tks
