Hi Amy/Zuhdi,

Please update your Equipment Master List to reflect all items which's going to be handled by Micro Precision under 'Vendor' column.

And also indicated those item were arranged before our single-vendor initiative cut-in date in the same master list.

So that we continue use one single Equipment Master List for all calibration management, it will be easy for monitoring by both Flex and Waters.

I will process this claim after this Equipment Mast List updated to reflect all recent changes mentioned above.

Please let me know if you have any questions. Thank you

Hi Hua Zhen

Flex Calibration Procedure defined to coordinate and trigger the owner 2-months ahead from the due date.
Means if the equipment will be due in Feb/March, the coordination with Owner and Supplier was took place in Dec 2019 and Jan 2020.
And Supplier (Existing) shall provide the quotation to Flex, and had firmed the arrangement on certain date.

This is the reason why we still sent equipment 0246 due on 13 Feb to existing supplier.

Out of 0246, we also have below 5 equipment due in 4th week of Feb and 1st week of Mar send to existing supplier base on current supplier.

S/N	Equipment ID	Equipment Description	Manufacturer
40	0497	Electronic Weigh Balance	AND
47	0592	Torque Wrench	Snap-on
48	0594	Dial Depth Gauge	Mitutoyo
49	0595	Dial Indicator	Mitutoyo
51	0877	Torque Wrench	Snap-on

Hi Amy,

Please list all equipment you have engaged vendor before this transition and highlight to us with details (eg, calibration date).

We shouldn't see items under transfer list is still using previous vendor since we have appointed Micro Precision to provide the service.

Regarding equipment 0431 Keithley 485, it's not in the list.

So you can still engage the original service provider to do calibration as Micro Precision has no capability for now.

Hi Hua Zhen

Per Flex procedure , Calibration coordinator will inform the calibration schedule 2 months before the due date. This is the reason some equipment still send to "old" vendor.

Can you also check equipment number 0431, model 485? It's not in the transfer list but you highlight below .

I copy calibration team Zuhdi in the loop if you need further information .
