Hi Joel/Shamsul,

Tomorrow I will visit Flex. Shall we take a look the golden unit with faulty parts together?

And please indicate the product tested on this golden unit in Remark too, when raising the claim. That will be helpful for us to understand where are parts used for better.

Thank you

Hi Hua Zhen

Looking on this golden unit, 2998 detector(golden unit) p/n: 186299800 s/n: B13998443A due to lamp lighting failure.. we are almost doing fully refurbishment of the optic bench. Not sure if we can get a new units for this this as the new OB is already using Hamamatsu and OB still using Onsemi Chip.

This week, we encounter of downtime on this tester again. Will raise OESR due to Noise failure

Best Regards,

flex
