Hi Desmond / Edwin,

Any updates on this? Venture have consumed all the balance jig on hand in early March, this will affect next 100 units build.

Kindly give the approval for us to draw out the mating part (to prepare for next build) from our store and charge to WPPL.

Part number : 6071404

Qty : 8 pcs

Thanks & Best regards,

Hi Desmond,

Previous arrangement is for waters to raise PO directly to the supplier.
Fabricate 1 time 8 pieces for the whole year (based on previous forecast)
For every 100 pcs, we need to change 1 pcs as the piece will be enlarge which will fail leak test.

The other mating part, we can get from Venture stock and charge to waters accordingly, best to get 1 years and safe keep with Engineering.

Thanks & Best regards,

Hi Alan,

I need to check if there is any PO raised for this.

What was the previous arrangement? WPPL to send PO direct to the vendor or Venture claim in the monthly claim?

Thank you.

Regards,
Desmond.
