

Calibration-Global Services-Test Equipment

Company Overview

- Micro Precision was founded in 1969
- More than 30 Global locations and expanding
- All of our locations are accredited to ISO/IEC 17025:2017
- Online database management system
- We repair a broad range of manufactures at our eight repair facilities
- Our company takes pride in calibration, repair, equipment sales

Micro Precision Branding Update

Over the years Micro Precision Calibration Inc has grown both our Global Footprint as well as the services which we offer our customers. In line with this we will be implementing changes to our Brand which will address our growth and the Global Equipment Management Solutions we now offer.

The new Branding changes will include a new Logo, Company Color Schemes, New Business Cards, New Website, and Marketing Materials as well as an update to our company Vision and Mission Statements

Icon is made up of several components which tie into our business.

PRECISION and MEASUREMENT

This incorporates a cross hair design of a reticle also known as a graticule. This symbolizes Precision and Accuracy as well as Direction of our Company. It also ties in the Measurement aspect of our company as reticles used in optical measurements and graticules are used in oscilloscope measurement. It also has the look of the face of a gage.

GLOBAL FOOT PRINT

The circle in the Icon represents the World and highlights the Global Nature of our company.

NAME RELATION

Letters “M” and “P” - starting letters of the company are fused within the symbol.

WHAT WE DO

Calibration

Micro Precision offers comprehensive calibration solutions via our global network of ISO/IEC 17025 accredited laboratories

Micro Precision offers:

- **Comprehensive Scopes of Accreditation**
- **In-lab calibration**
- **Onsite calibration**
- **Multiple service levels to meet your quality system requirements**
 - **Traceable**
 - **Traceable with Data (Z540-1)**
 - **Accredited (ISO/IEC 17025)**
- **Custom calibration (custom specifications/measurements, system, etc.)**

Capabilities/Scope

Electrical/RF/Optical

- RF Microwave
- AC/DC
- Power
- Electrical
- Digital Waveform
- Optical Power
- Optical Sensor
- Video Phase
- Noise
- Frequency
- Time Domain
- Laser
- ESD

Physical/Dimensional

- Weight
- Torque
- Pressure
- Gage Blocks
- Precision Tools
- Force, Flow
- Hardness
- Mass
- Temperature

CALIBRATION SERVICE LEVELS

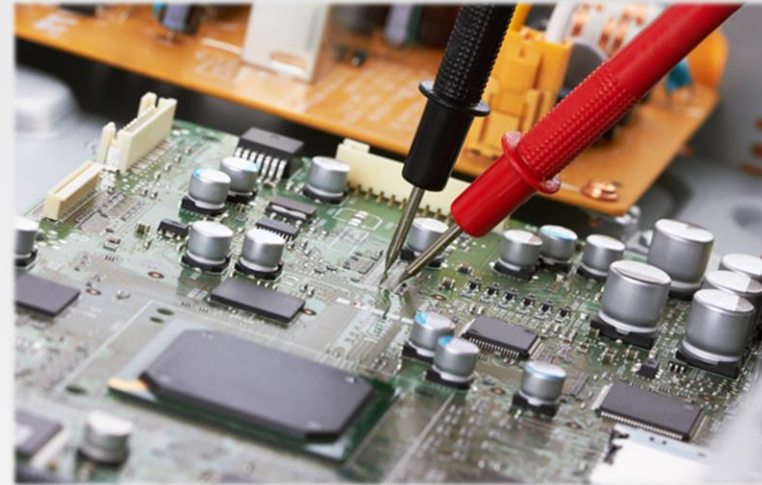

Type of Service	Traceable	Traceable with Data	Accredited (ISO/IEC 17025)
Calibrated to manufacturers specifications traceable to SI Units	✓	✓	✓
ISO 9000 Compliant	✓	✓	✓
Calibration certificates, data, maintained on secure web based tool (CDM)	✓	✓	✓
Detailed calibration certificates and calibration stickers	✓	✓	✓
Instrument adjustment (if found out of tolerance)	✓	✓	✓
ANSI/NCSL Z540-1 compliant		✓	✓
Calibration Data		✓	✓
Logo from Accreditation body, Expanded Measurement Uncertainty			✓
ANSI/NCSL Z540.3 compliant			✓

WHAT WE DO

Repair

Component Level Repair Centers located in the following countries:

- USA
 - Mexico
 - China
 - Thailand
 - Philippines
 - Malaysia
 - Korea
 - Netherlands
- Micro Precision maintains a large inventory of repair components
 - Micro Precision supports equipment that has been EOL by OEM
 - Detailed repair reports and equipment history maintained in Customer Data Management System (CDM)

WHAT WE DO

Asset and Program Management

Micro Precision can manage or assist you in managing your assets or calibration and maintenance program via our Customer Data Management System (CDM). Micro Precision can also administer the program using Micro Precision personnel as a single point of contact, consultants, and administrators.

CDM is a comprehensive cloud based tool that provides:

- Online Calibration Certificates and Order Tracking
- Automated Calibration Alerts/Recall System
- Inventory Management
- Historical Data Tracking Repository
- Downloadable PDF Certificates and Calibration Data
- Instrument Repair Reports
- Dashboards that provide TAT, performance/instrument status, billing, repair management/tracking, etc.
- Accessible via computer and smart phone app

Customer Data Management (CDM)

24 / 7 SECURE WEB ACCESS

- ONLINE CALIBRATION CERTIFICATES
- ON LINE ORDER TRACKING
- AUTOMATED CALIBRATION ALERTS
- INVENTORY MANAGEMENT
- CENTRAL DATABASE FOR EQUIPMENT
- EQUIPMENT HISTORICAL DATA TRACKING

link to access MPC's Customer Data Management system (CDM) under your division.

Calibration Recall Report

Obtain the recall cycle from the customer for the instrument being calibrated

Recall Notices is automatically generated in MP database.

Recall Notices will be sent to customers via electronic mail containing the following:

- Overdue instruments (from first of two month earlier) to instruments due the current month, MP will send the recall notice auto generate email to customer share account to alert tools owners.
- Alert email going to send in two-month, one-month, and two-week till the calibration jobs been done before due date.
- Sales Representative will make a call to customer tool's owner user if email alert no one respond.

ONE STOP SHOP CALIBRATION

MP HAS THE ABILITY TO CALIBRATE ALL
YOUR EQUIPMENT NEEDS AT ALL YOUR
FACILITIES WORLD WIDE.

THIS MEANS **COST AND TIME SAVINGS** IN
VENDOR MANAGEMENT

Markets Served

- Semiconductor
- Consumer Electronics
- Medical
- Oil and Gas
- Food and Beverage
- Power Generation
- Automotive
