Desmond Ann

Hi Tetiana,

Good day,

Coincidentally, we had a discussion internally yesterday:) For these two activities, Huazhen will be taking the lead with Mandy assisting him.

Quick introduction on Mandy. Mandy is our senior product assurance engineer reporting to Paul Merson (Wilmslow) but reside in WPPL Operations to support MS projects. As Paul's team support similar requirements in area of test and test support activities, I have request she also support LC detector products to balance our portfolio in WPPL.

Tetiana, do you or Emma need to give Mandy a formal training (via conf call) so that she can be approved to conduct IQ activities. Can she just self read 730001835 and the associate ppt or it need to be a formal training?

730001835ver05.pdf

Thanks and Best Regards,

Koh Edwin

Snr Operations Manager

Subject: GTS qualification

Edwin,

There will be two cross sites qualification activities going on in the near future:

1. GTS duplicate system qualification
2. PDA upload system qualification due to the FW update (ECR 9222852 effective on 10 July 2018)

The first, GTS project, effects only CM site and will be performed by the WPPL Manufacturing Team. I believe that Su Fern or Hue Zhen Luo will be leading this project. Please advice. [Edwin: Huazhen will lead the project \(Priority 2\)](#)

Per our Qualification procedure, duplicate TE will require VAF and IQ deliverables.
VAF template can be found in the 730001938 DIR. Reviewers will be: Rick Davis and Emma Pierce.
Approver - Andre Kopoyan.
IQ procedure/template can be found in the 730004135 DIR. It should be executed in Full (Including all Test Scripts).
IQR should be written using the 730002845 template. The Reviewers and Approver will be the same as VAF.

The FW update project will affect multiple TE systems across sites.
Emma Pierce will be initiating VAF and sharing the draft document with the WPPL Team for review.
Milford Team will be responsible for the FW qualification activities in the Milford site. Yeehwa or Lou will be qualifying upload TE in the Flex location. [Edwin: Huazhen will lead with Mandy assisting him \(Priority 1\)](#)

In case of both projects we will be assisting WPPL team in case of any questions or concerns.

Best Regards,
Tanya
