Hi Chan,

As communicated earlier. The math for PM MRO is [not acceptable](#) as Q4's allocation was lumped in together with Q3.

- Specifically, annual PM parts (column 186002350 & 186006049) conducted in separate quarters, Q3 & Q4 in groups of 4 testers

This results in finance [inaccuracy](#) which is [not desired](#). Please help ensure that we are not purchasing quantities outside of quarter allocations [@Ei Lwin Htay](#) [@Teo Yiek Tiong](#).

Kindly send a revised MRO for internal purchase and for Hua Zhen.

*MRO for consumables have been approve and submitted for processing, I'd provide updates when I get them from Berrie.
