

Instructions

Fill out requestor name, phone extension, date, and the Equipment ID number.

Check either Change or Remove.

For a change select each item to be changed and provide new value.

Provide justification for No Calibration Required or for Calibration / PM interval change in Comments.

For Remove, select Inactive or Deactivate, provide the reason and obtain the equipment owner's signature.

If custom test equipment is being removed provide part numbers, planner, and engineering manager signatures.

Requestor: Richard Davis Phone: 2522 Date: Dec 1, 2020

Equipment ID: TE83064-REFRB

☐ **Change** (select all that apply)

☐ Type Select New Type(s)

Calibration ☐ Preventive Maintenance (PM) ☐ No Calibration Required ☐ Calibrate Before Use ☐

☐ New Cost Center: N/A ☐ New Work Center: N/A

☐ New Calibration/PM interval: N/A Months ☐ New Procedure: N/A

Comments:

TE83064-REFRB is being upgraded to TE0084050-R1. This involves replacing the PC, new test software, modifying the Test Box, replacing some cables, and changing the TE#. The remaining components are unchanged.

☒ **Remove** (select Inactive or Deactivate)

☐ **Inactive** - Stop Calibration / PM schedule

☒ **Deactivate** (Scrap equipment)

Reason: TE83064-REFRB is being upgraded to TE0084050-R1.
